Folio AM-31630

Figure 1 consists of two side-by-side scatter plots. The left plot is labeled '1980 Census' and the right plot is labeled '1990 Census'. Both plots have 'Number of children in household' on the x-axis and 'Number of children in neighborhood' on the y-axis. The x-axis ranges from 0 to 10, and the y-axis ranges from 0 to 10. In the 1980 Census plot, there are approximately 15 data points showing a positive correlation. In the 1990 Census plot, there are approximately 20 data points, also showing a positive correlation, but with a steeper slope than the 1980 Census plot.
